Connexion

Windows

PUTTY / X2GO / FILEZILLA

Mac

SSH

`ssh -X -C $login@seolane[X].seolane.org`

nécessite XQuartz

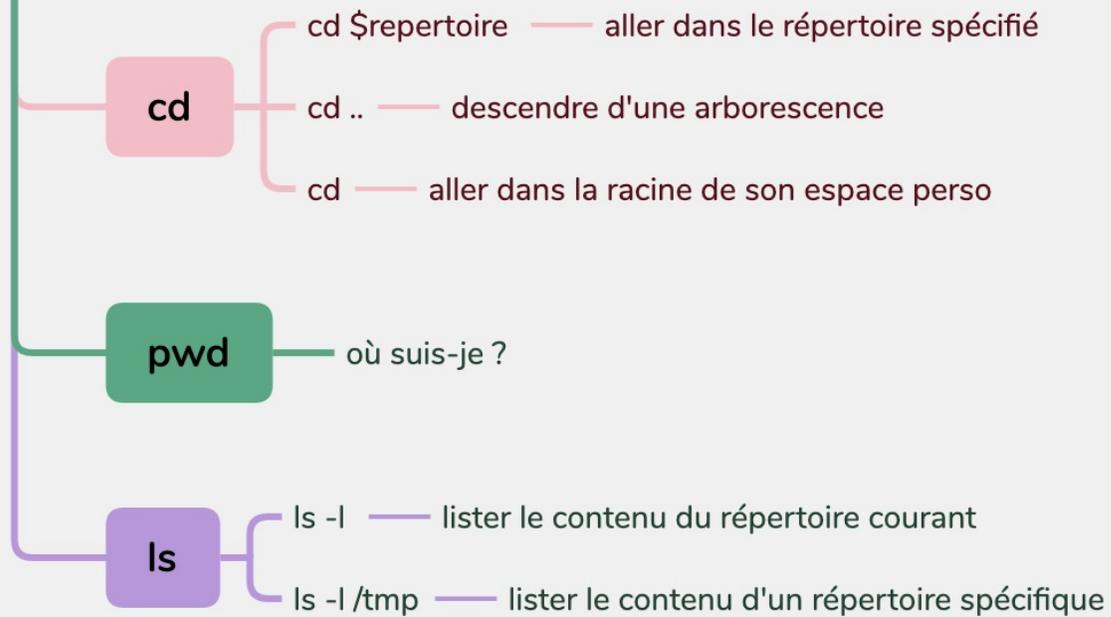

Linux

SSH

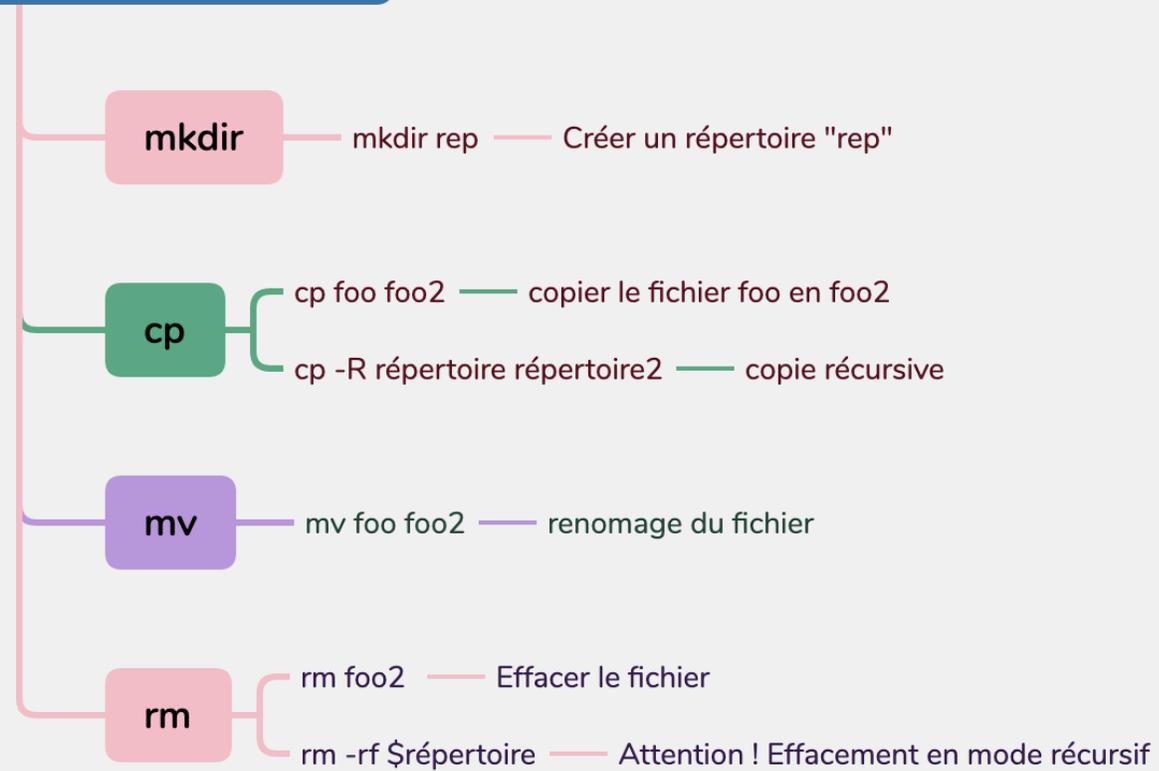

`ssh -X -C $login@seolane[X].seolane.org`

Presented with **xmind**

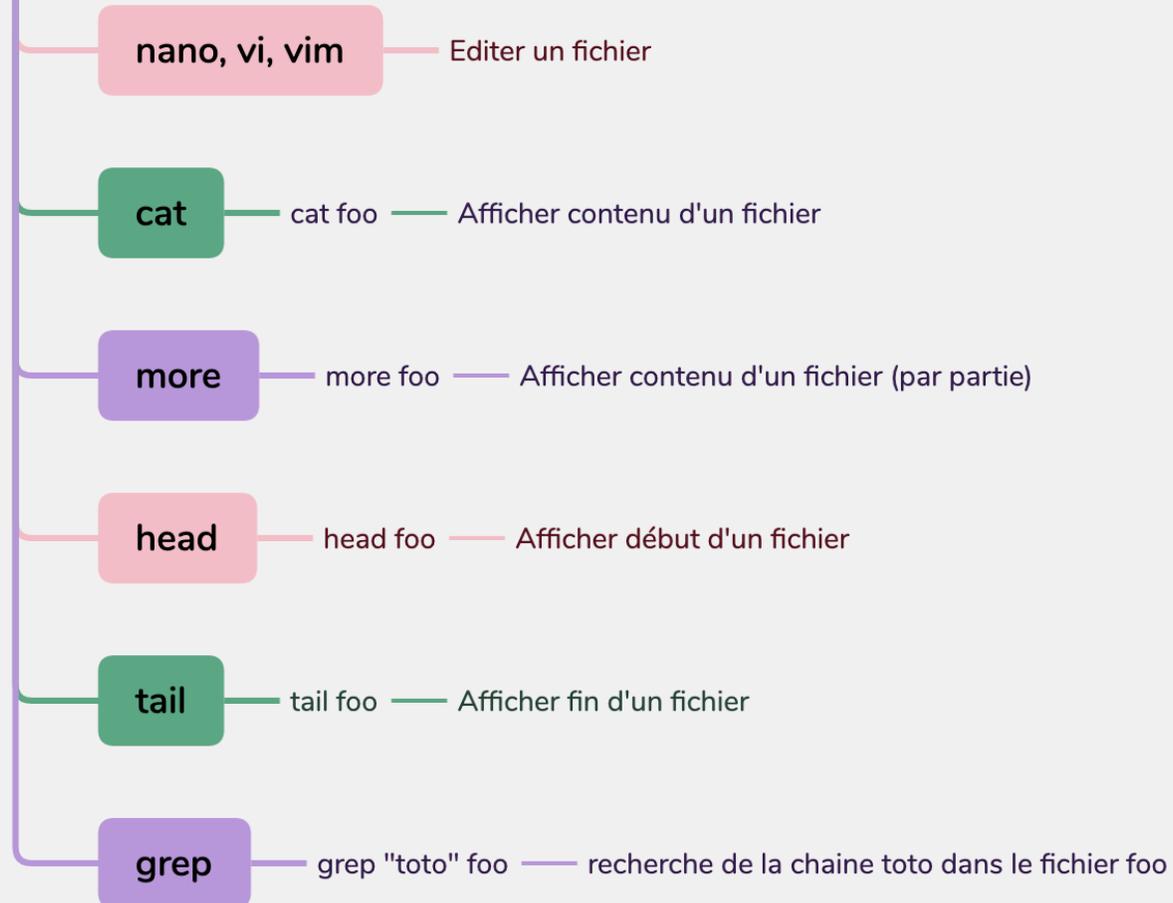

commandes pour se déplacer et lister

créer, copier, déplacer, détruire

Manipulation sur les fichiers

Compilation

`gcc,ifort,gfortran`

Compilateurs disponibles

`ifort -o myprog fic1.f fic2.f`

un exemple de compilation en fortran

`chmod +x myprog`

rendre executable le fichier

`./myprog`

exécuter le programme
